

HOW TO CLEAN FILMY HEADLIGHTS

1

WET THE HEADLIGHT lens with a cloth or sponge

2

WIPE OFF any loose dirt and debris

3

SPRINKLE a small amount of Bar Keepers Friend Cleanser & Polish on the headlight lens *

*Safety
Made Simple*

Pro Tip - Protect the painted areas around the headlight with a stripe of masking tape

4

RUB GENTLY with a wet cloth or sponge

5

RINSE THOROUGHLY Within One Minute of Application

6

WIPE the Surface Dry

ALWAYS TEST FIRST!

Some ingredients in Bar Keepers Friend Cleanser & Polish may etch or dull delicate surfaces. Before cleaning fiberglass, plastics, anodized aluminum, or brushed metal surfaces—including appliance exteriors—test first.

7

REPEAT until the film is removed

**HAVE A REALLY TOUGH CLEANING SITUATION?
YOU NEED BAR KEEPERS FRIEND.**
