SECTION 4 - FIRST AID MEASURES

**Inhalation:** None required under normal use conditions. If mists are generated, move to fresh...
If breathing has stopped give artificial respiration. If breathing is difficult have qualified personnel administer oxygen. Get immediate medical attention.

**Skin contact:** Immediately remove contaminated clothing. Flush skin with water for at least 15 minutes. Get immediate medical attention. Launder clothing before reuse.

**Eye contact:** Immediately flush eye with water for at least 20 minutes while lifting the upper and lower lids. Remove contact lenses if present and easy to do after the first 5 minutes then continue flushing. Get immediate medical attention.

**Ingestion:** If conscious, rinse mouth with water. Do not induce vomiting. Never give anything by mouth to a person who is unconscious or convulsing. Get immediate medical attention.

**Most important symptoms/effects, acute and delayed:** May cause severe irritation or burns to eye and skin. Permanent eye damage may occur. Ingestion may cause burns to the mouth, throat and stomach with nausea, vomiting and diarrhea.

**Indication of immediate medical attention and special treatment, if necessary:** Medical treatment is recommended for all incidents of contact or exposure.

---

**SECTION 5 - FIREFIGHTING MEASURES**

**Suitable (and unsuitable extinguishing media):** Use any media that is suitable for the surrounding fire. **Specific hazards arising from the chemical:** This material is not flammable. Oxalic acid may decompose producing carbon oxides and formic acid under fire conditions.

**Special protective equipment and precautions for fire-fighters:** Firefighters should wear full emergency equipment and NIOSH approved positive pressure self-contained breathing apparatus. Cool fire exposure containers with water.

---

**SECTION 6 - ACCIDENTAL RELEASE MEASURES**

**Personal precautions, protective equipment, and emergency procedures:** Wear appropriate protective clothing and equipment to prevent eye and skin
**Environmental precautions:** Avoid release to the environment. Report spill as required by local and federal regulations.

**Methods and materials for containment and cleaning up:** Wipe up small spills with a sponge or paper towel. Collect and contain large spills with an inert absorbent. Neutralize spill with sodium bicarbonate or other dilute alkaline material. Place into appropriate containers for disposal.

**SECTION 7 - HANDLING AND STORAGE**

**Precautions for safe handling:** Prevent eye and skin contact. Use with protective equipment as described in section 8. Wash thoroughly after handling. Remove contaminated clothing and launder before reuse. Empty containers retain product residues. Follow all SDS precautions in handling empty containers.

**Conditions for safe storage, including any incompatibilities:** Store in a cool, well-ventilated area. Keep in original containers. Protect containers from physical damage.

**SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION**

**Exposure guidelines:**
